Brings the Death Bomb Mechanism Back With Him to Oakland

Upon Arrival Youngster Takes Officers to Places Where Mrs. Martin Hid High Explosives

"Baby" John Martin, whom the police say has been developed into the youthful criminal of the century by the influence wielded over him by Mrs. Isabella Martin and who has given sufficient evidence against the woman to result in her imprisonment for life provided corroborative evidence can be secured, arrived this morning from Weaverville in company with Detective Hodgkins, Chief Deputy District Attorney Donahue and District Attorney D. J. Hall of Trinity county.

The lad was at once placed in charge of the matron at the city prison and close watch is being kept over him to prevent his making public any further evidence which he alleges to have against his reputed mother as to her murderous acts in the past.

In one of the grips the lad carried was the mechanism of an infernal machine the boy said had been made by his mother and this will be one of the most sensational exhibits at the trial of Mrs. Isabella Martin when she appears in court here to answer the charges made against her.

Big, Cool Youngster.

"Baby" John is a good-sized youngster to be judged by his age. He is tall and thin, with a face that shows no signs of worry or excitement. He is dressed in a simple, clean, light-colored suit, and his hair is dark and neatly combed. He has a calm, almost indifferent expression on his face, and his hands are clasped in front of him. He is looking directly at the camera with a steady gaze.

MYSTERY SURROUNDS HER HUSBAND'S DEATH

After Series of Quarrels Man Found Dead

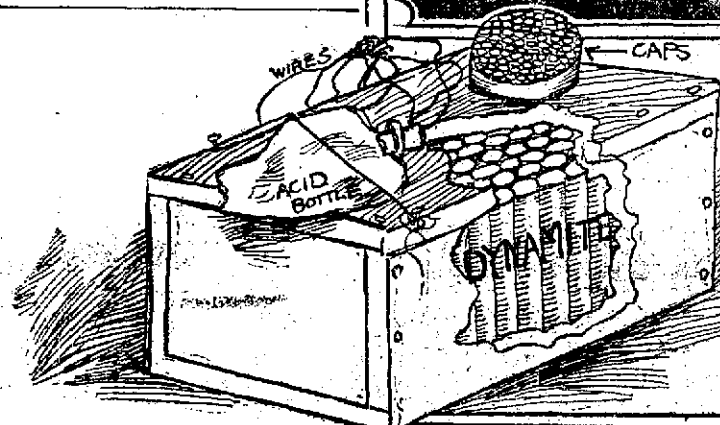

Louis Cabral, 22 years of age, died under mysterious circumstances at his home, 833 East Twelfth street, shortly after noon today. He had been out on the streets during the morning and returned to his home a short time before his death, complaining of feeling ill. His condition soon became alarming and Dr. S. R. Hill, who was called in, reported to the coroner's office that the symptoms seemed to indicate that death was due to strychnine poisoning.

Jockey Club Donates \$1,000 to Entertain Men of Fleet Here

The New California Jockey Club has given \$1,000 toward the fund to give Admiral Evans' jockies a good time when they arrive here.

The dynamite described by "Baby" John in his confession as being in an Oakland park was found at noon.

Captain of Detectives Peterson, Captain of Police Lynch and Detective Hodgkins, accompanied by "Baby" John, rode in the police auto to De Fremery Park, at Sixteenth and Adeline streets, on the boy's arrival from Weaverville this morning. Under his direction they searched inside a clump of shrubbery at the westerly end of the park and found a Japanese lacquered tin cash box containing forty sticks of dynamite, a roll of fuse, a number of screw tops used as caps and a quart bottle two-thirds full of muriatic acid.

Governor, Mayor and Other Officials Attend Service of Father Leo.

(BY ASSOCIATED PRESS.) DENVER, Feb. 26.—With the solemnity and reverence due to his holy position and spotless character, the body of the Rev. Father Leo Heinrichs was taken from St. Elizabeth's Catholic Church today to the Union station where it was placed aboard the afternoon train to be forwarded to St. Ignace, N. FRANCO WAS UNDER THE BAN

Treason Led to King's Murder

Big Uprising Had Been Planned for Same Date

Country Was Saved from Revolution but at Expense of His Royalty.

(BY ASSOCIATED PRESS.) LISBON, Feb. 26.—The mystery behind the murder of King Carlos and Prince Luis is not likely ever to be completely lifted. The new Portuguese government professes that the crime should be regarded both at home and abroad as the deed of individuals carried away by the political passions of the moment and inasmuch as the republicans are so anxious to clear their skirts of responsibility for the regicide, both sides are glad to see an investigation which would the affair to the bottom smothered. Yet there is an intently much that could be cleared up.

Many Cover Intrigues.

It is a matter of common knowledge that there were intrigues in high places as well as low before the tragedy occurred and the rage of the leaders and the passions of the masses of the "Revolutionary" parties against which Premier Franco and King Carlos were warring exceeded all bounds. There is no suggestion that there was a repudiation of the Regicide plot, but that of the King's person, but that some of the desperate political leaders were involved in the series of abortive plots against Franco's life which preceded the murder is believed, in well informed circles here.

FRANCO KNEW IT.

Franco himself told a friend the day before he left Lisbon (virtually upon the order of the government) that it was impossible to reveal to the world what he had learned of the intrigues of the enemies of the King and himself and therefore it was better for him to retire forever from the political arena.

Will Tell All That He Knows

'BABY' JOHN HELPS THE POLICE

(Continued from Page 1.)

A net of evidence around Mrs. Martin which they had secured while in the home of Superior Judge Ogden and having laid plans to dynamite the home of other Oakland residents against whom she held fancied grievances.

Why He Is Here.

While the authorities will not point out that Mrs. Martin will be brought here for trial, it is evident that she is working to that end and that the boy was brought to Oakland with the object in view of obtaining, if possible, evidence corroborative of the statements he has made.

For hours after "Baby" John arrived in Oakland he was coddled by the police officials and was again taken over the story which suppresses anything in criminal annals or otherwise brought to the attention of the local authorities. Detective Hodgkins, District Attorney Hall, County Judge Ogden and Deputy District Attorney Donohue are all firmly convinced that the lad is truthful and they are endeavoring to bring about developments which will bring out all of his statements. Believe the Boy.

Deputy District Attorney Donohue said this morning that he is of the opinion that "Baby" John is telling the truth. "I am not in a position to discuss the results of the trip to Weaverville or anything else," said Donohue this morning. "I will make my report to District Attorney Brown. So far as the county officials are concerned, the case will be left to the Oakland police. We of course will lend assistance where we can and will all work together to bring out the truth. "Baby" John is a manly fellow and has gained the respect of his elders because of his manly actions."

Hodgkins' Report.

Detective Hodgkins is non-committal, saying that the case is now in the hands of his superiors. He is to make an exhaustive report of his trip. It is intimated that he has uncovered damaging evidence against Mrs. Martin. Questions, however, as to what developments in the case are met with the reply that the whole story has been told and that "Baby" John is in Oakland merely for the purpose of corroborating the statements already made. District Attorney Brown, who has been in the city since his arrival in the city, has no objection to the lad being brought to Oakland for trial, being agreeable to holding the arson charge in abeyance.

Curious Crowds.

The police today heard with interest the story the boy has related before and which has been told in full in the columns of this paper. The lad's story is of interest, from a criminal standpoint, anything in the annals of police history of this city.

He tells without hesitation to the police how and when he was started on his way to dynamite the home of Judge Ogden. He says that he was taken up the home of Judge Ogden, a scheme Mrs. Martin had evolved to poison the mind of the judge. His story ends in Weaverville, and goes into detail into other remarkable phases of an altogether remarkable case.

There were many persons who called at the city prison today to get a look at the boy, but he was not seen. He was low him to be seen or conversed with until they have learned all that he has to tell and until they have had an opportunity to corroborate his statements, which may lead to the imprisonment of the one woman who had for years loved, respected and obeyed.

District Attorneys Confer.

Chief Deputy District Attorney W. H. Donohue reported to District Attorney Brown this morning on his arrival in the city to the evidence he had gathered in Trinity county against Mrs. Martin, connecting her with the scheme to blow up the home of Judge Ogden. "We have a good deal of evidence against Mrs. Martin," he said, "but it has not been made public as yet. It would be unwise for us to disclose it at present. We expect to get more evidence out of 'Baby' John Martin. Today we will take him with us in order to corroborate the statements that he has made to us."

Prosecuting Officer at Trinity County Who Came to Confer With the Oakland Authorities.

TO TELL ALL "I'll Make a Clean Breast of It," Says Boy

"Baby" John Martin, in the custody of Assistant District Attorney Donohue, Detective Hodgkins and District Attorney Judge Hall of Trinity county, arrived at the Sixteenth street station this morning at 9:30 from Weaverville. He will remain here under the charge of Deputy District Attorney Donohue for four days, when under the guidance of the lad, it is expected that startling proof will be unearthed in the search for hidden incriminating evidence against the boy's mother, Mrs. Isabelle Martin.

When the quartet left the train the crowd spread rapidly that the young chap surrounded by the three stalwart men was "Baby" John Martin. The party carried an assortment of baggage, from a burlap bag containing the boy's change of raiment, to straw suit cases and leather satchels, and by the time they were ready to descend the Fourth street car, the sidewalk was well lined with the curious.

"Well, John, home again?" said Deputy Donohue. "Yes it's home all right," answered "Baby" John. "It's the greatest trip in the world."

"Well, we won't be here very long," replied "Chief" Donohue. "On their arrival at the police office on Fourteenth street, "Baby" John was taken inside the railing to await the return of Detective Hodgkins and Judge Hall at noon.

"I intend to make a clean breast of everything," said the boy, "and I guess I can find some things around here that will show I haven't been telling anything but the truth. We can't get

AUTHORITIES THINK THEY HAVE GOOD CASE AGAINST MRS. MARTIN

Heads of the local police department and detective bureau are confident of securing a conviction of Mrs. Martin on a charge of dynamiting the home of Superior Judge Ogden. This information was given out at police headquarters this morning, but none of the grounds on which the sleuths base their opinion are made public. It is also the general belief of the police that "Baby" John is not the son of either Mrs. Martin or the Princess de Chimay. It is intimated that his identity will be established when Mrs. Martin is finally brought before the courts of Alameda county on a charge of dynamiting with intent to destroy human life and property.

started at it any too soon for me, either. I would like to get a little sleep first as I didn't rest well on the train last night; but we are going right out over the route and I guess we'll unearth something before dark."

The "something" is probably the slacks of dynamite which the alleges are hidden in an Oakland park. A thorough search of the Martin house will possibly be undertaken today. It is firmly believed that incriminating evidence will be found here.

Still a Prisoner.

"Baby" John is in my custody, also,"

said Judge Hall, when asked why he was accompanying the Oakland officers. "He is still a Trinity county prisoner as an information of arson has been filed against him, although there is no intention of pressing the charge. He has been permitted to come to Oakland by Superior Judge Bartlett and will be taken back to Weaverville before the end of the week."

Young Martin was well dressed in a light tweed suit and top coat. He is extremely well developed for his age and fine looking. He wore a light cap over his long curly hair.

Despondent Wife Attempts Suicide With Strychnine

(SPECIAL TO THE TRIBUNE.) SAN FRANCISCO, Feb. 26.—In a fit of despondency following a dispute with her husband, Mrs. Mary Hess, who keeps a lodging house at 714 Franklin street, attempted suicide at 1 o'clock this morning by swallowing two and a half grains of strychnine.

Earlier in the evening Mrs. Hess and her husband, who is a carpenter, had had a violent quarrel, according to the story told by lodgers in the house, and at 1 a. m. one of them, passing in the hall, heard Mrs. Hess groaning, and breaking into the room found her lying in a comatose condition, with the strychnine bottle open and the pills scattered about. A call was sent in to the central emergency hospital, and after Dr. Tilman and Steward Thomas had worked over her for an hour she was pronounced out of danger.

He has known her for a little over two years and learning that she was sick he went to the Scotts Hospital to see her last Sunday. She told him an emotion had been performed, but did not hint at its character. He says he does not know what other male acquaintances she had.

ROB POSTOFFICE SAFE OF \$6750

Broken Locks Replaced by Burglars Who Stick Them on With Tallow.

BAKERFIELD, Feb. 26.—One of the safes in the postoffice here was opened last night and \$6750 in stamps of all denominations was stolen by burglars, who left no clew. The combination locks on both the inner and outer doors of the safe were broken by means of a sledge and chisel and after the stamps had been taken the doors were again shut and the demolished locks put in place by means of tallow.

The first knowledge of the robbery was when a clerk went to open the safe this morning and upon turning the combination the knob fell into his hand. It is thought that entrance to the building was gained by means of a pass key.

LOSES \$1250 BY OLD BUNCO TRICK

Restaurant Keeper Puts Money in Box With That of Strangers and It Vanishes.

(SPECIAL TO THE TRIBUNE.) SAN FRANCISCO, Feb. 26.—Charles Martin, a restaurant keeper of 363 Tenth street, Oakland, was victimized by two bunco men out of \$1250 last evening and both men escaped.

Martin was dining at the Universal Restaurant at 1291 Golden Gate avenue when he fell into conversation with two Italians. They procured a small tin box, placed some of their own money in it and advised him to put in his \$1250, which was all in bills. They then proposed that if he sealed the box and the restaurant safe and that they should come and get it in a few days and take a trip to Europe with it.

After the Italians had left Martin became suspicious and, taking the box from the safe, he secured a locksmith and had it broken open. A few worthless papers were all that it contained.

'HE'LL BE A CRIMINAL FOR LIFE,' SAYS SISTER

Miss Jean Pettyjohn Says Reform School Will Ruin Boy.

"My boy will be a criminal for life now," cried Miss Jean Pettyjohn this morning in Judge Ogden's court when her eighteen-year-old brother, Henry, was sentenced to the Preston School of Industry until he reaches his majority. She left the courtroom sobbing. "I have tried for years to keep him straight," she sobbed, "and now he is home at night and away from bad companions, but he was wilful and would not listen. Now he will be bad for the rest of his life. He is a jaded, and the stigma will remain with him as long as he lives."

Pettyjohn was arrested with Charles Grazer and Ray Miller, two other youths, for robbing Dr. E. J. O'Brien's store. They are accused of having entered the basement and stealing gas fixtures. Grazer, who is only sixteen years old, was put on probation today by Judge Ogden. Miller's case will come up Saturday.

Gauslaug, president of the Armour Institute of Technology, Chicago, in the course of an address here last night at the dinner of the Knickerbocker Club Continuing, the Rev. Gauslaug said in part: "While times of great trouble like the Civil War demand a Lincoln, times like the present need a man who has some of the qualities of Gladstone, and Mr. Roosevelt has them in plenty. People fifty years from now will be glad to admit Roosevelt as a great man, whatever faults they may discover in him."

U. S. Ships Exceed Japs at Gun Fire

WASHINGTON, Feb. 26.—Real Admiral Washington Lee Cappe, chief constructor of the Navy, before the Senate committee on Navy affairs today, replied to the magazine article written by Henry Reueard in a criticism of the construction of the American battleships. The admiral asserts that the American ships are the equal of ships of any navy in the world. He stated that during the five hours' fighting in the light of the sea of Japan, the rapidity of firing from big guns of Japanese vessels was only once surpassed, that maintained by the American navy during recent target practice.

QUEEN HAS NARROW ESCAPE FROM DEATH

Wilhelmina in Trolley Car Wreck

THE HAGUE, Feb. 26.—Queen Wilhelmina and Prince Henry, her husband, had a narrow escape from serious injury in a carriage accident which occurred near the palace today.

The Prince was driving the carriage in which her majesty was seated. In a narrow part of the road an electric car, coming at full speed, collided with the vehicle before the Prince could turn out.

The impact was very severe and the carriage was badly wrecked, three wheels being torn off. Neither the Queen nor the Prince were hurt. Her Majesty was somewhat unnerved, but she was able to walk to the palace. Shortly afterward, she left the palace and went to the residence of her mother, in order to reassure her and prove that she had not been injured.

MAYOR BUSSE PERSONALLY CONDUCTS PARDONED MAN FROM PRISON IN JOLIET

CHICAGO, Feb. 26.—Mayor Busse personally escorted from a cell at Joliet to Chicago, last night, a self-confessed embezzler of public funds, John F. kept him from being annoyed from the inquisitive persons. Linn was in the penitentiary 22 months. The reason given for the release is that his health had failed and that his mind was failing. Linn's political strength was in the north district of the city, the district where the mayor is a resident.

FRANCO UNDER BAN

(Continued from Page 1.)

concerned but this can not be said of the advanced, or radical wing, as there is plenty of evidence that they had planned a rising on the night of the crime.

Planned a Rising.

Signals to the ships in the harbor and the barracks on the slope of St. George's Hill were shown toward midnight from the roof of the National Library and a band of men went to the barracks of an artillery and infantry regiment which were to join in the proclamation of a republic. The signals brought no response and the doors of the barracks were found locked.

The entire conspiracy fell through. It is related because of treason of a young lieutenant who after the assassination of the King took refuge with his father, an officer, the role he was to play.

Betrayed by Youth.

The young man claimed that he had been deceived, that he did not know the plot was contemplated, having been led to suppose that only the life of the Dictator was to be taken. This advance warning enabled the military authorities to take the necessary precautions and thus frustrate the military support, which was counted upon to give access to the plot.

Notwithstanding the betrayal some of the advanced Republicans assert that if the active leaders confirmed in the Basque fortress had been free that night in Lisbon, history would have told a different tale.

To Kill All Royalty.

Whether the plot aimed at the murder of the entire royal family is also the subject of active debate, as the official view attempts to make it appear known, Prince Luis was killed by a mistake.

This view, however, is not supported by the testimony of eye witnesses. One of these, the tutor of the Princess, was standing in the arcade

Thought It Firecrackers.

Thinking the report was the report of firecrackers, he turned to the man at his side and said: "Take off your hat. It is the King."

The words were not out of his mouth before the man darted forward revolver in hand, and running to within five feet of the rear of the carriage fired point blank. The King sank down, and his head fell forward. In the confusion which followed the tutor saw the man who had fired first kneeling in the street with a carbine at his shoulder, firing shots in rapid succession.

Crown Prince's Bravery.

The crown prince was on his feet as the King received the fatal bullet and the tutor is certain that it was he who killed the murderer of his father. Hosts were shot from the front through the heart. Whether it was the crown prince's bullet which killed him or not it is certain that the Prince fired twice for two chambers of his revolver were emptied. Every thing was to prove that the plot was to kill the entire royal family, thus obliterating the dynasty and precipitate a change in the regime.

Clever Dynamite Machine

One of the most damaging bits of evidence against Mrs. Martin to the effect that she was preparing to blow up the home of Police Judge Samuels in this city and that she had made a study of infernal machines was brought from Weaverville this morning securely packed away in the baggage of Detective Hodgkins. The evidence is in the shape of an alarm clock of ordinary pattern, in which are cleverly arranged contrivances for setting off dynamite caps at any time chosen by the party whose duty it might be to plant an explosive. The alarm mechanism in the clock had been so arranged by means of wires which could be fastened to a dynamite cap that an explosion would follow at an hour at which the alarm might be set in motion. The time of the explosion could easily be regulated by setting the alarm hand.

THE WATERWAYS AND PRESIDENT ROOSEVELT

Chief Executive Deals in General Way With the Subject. Condemns Monopoly.

WASHINGTON, Feb. 26.—The report of the special commission on waterways transmitted to the Congress by President Roosevelt today deals only in a general way with the problems to be solved. The natural divisions of navigable river systems and the projects for the improvement of each are briefly discussed as follows:

These projects are so connected with geographic conditions and with natural resources as to fall in four great systems, viz., (1) the Atlantic-Interior system, comprising the Atlantic watershed, the Mississippi Valley, the Gulf slope and the Great Lakes with their water-shed; (2) the Columbia-Burnt system, comprising the territory west of the Rocky Mountains and north of the forty-second parallel of latitude; (3) the California system, comprising the valley of the Colorado and the Colorado system, comprising the watershed of the Rio Colorado and the Great Basin of the Interior.

Atlantic Interior

"In the Atlantic-Interior system there are projects for a deep waterway from the Gulf of Mexico to the Great Lakes; a deep and continuous Atlantic inner passage from New England to Florida; a project for canalizing the Mississippi; and Ohio rivers with their leading tributaries and connecting the Mississippi waters with the Great Lakes by canal; improving the navigable waters flowing into the Gulf of Mexico and Atlantic ocean; connecting the Mississippi with the Rio Grande and with the waters of Florida by inner passages; and connecting the Atlantic coast with the Great Lakes by canal.

"In the Columbia-Burnt system there are projects for improving the lower Columbia and the Willamette and Snake for navigation and power development; opening the channels and lakes of the upper Columbia and some of its tributaries to navigation; and constructing feeder and connecting canals; and also for extending reclamation through irrigation, drainage and the control of floods.

California System.

"In the California system there are projects for improving and canalizing the Sacramento, San Joaquin and Feather rivers and the coastwise route in such manner as to open California Valley to interstate and foreign commerce, and also for clarifying the streams, preventing floods and developing power; and in the Colorado system there are projects for thus far for irrigation, but prospectively for navigation and power. In all these systems—indeed in every State and Territory—the respective obligations of the State and Federal governments to the people and the relations of vested interests are of such complexity as to demand prolonged consideration not only by the commission, but by State and Federal officials; and it would seem premature to outline a general plan now, setting forth so many and so varied obligations and interests pending the conference on conservation, at which it may be anticipated that the interests of all the people will be fully represented.

Against Monopolies.

Among other things the President says: "Among these monopolies, as the report of the commission points out, there is no other which threatens, or has ever threatened, such intolerable interference with the daily life of the people as the concentration of companies controlling water power. I call your special attention to the fact that the report of the commission, through bills introduced at the present session, to escape from the possibility of Government regulation in the interests of the people. These bills are intended to enable the corporations to take possession of the property of national forests for the purpose of their business, where and as they please, wholly without compensation to the public. Yet the effect of granting such privileges, taken together with the rights already acquired under State laws, would be to give away properties of enormous value.

Lack of Foresight.

"Through lack of foresight we have permitted the habit of granting without compensation extremely valuable rights in our national forests, and in the streams and on the public domain. The repurchase at great expense of water rights thus carelessly being given away, is a costly and unnecessary waste of money. It is a waste of money also. No rights involving water power should be granted to any corporation in perpetuity, but only for a length of time sufficient to allow them to conduct their business profitably. "The report justly calls attention to the fact that hitherto our national policy has been one of almost unqualified disposition and waste of natural resources, and emphasizes the fundamental necessity for conserving these resources upon which our present and future prosperity as a nation primarily rests. Running water is a most valuable natural asset of the people, and there is urgent need of conserving it for navigation, for power, for irrigation and for domestic and municipal supply.

St. Louis Official Guilty of Grafting

ST. LOUIS, Feb. 25.—Daniel E. Naughton, assistant clerk of the House of Delegates, was today found guilty as an accessory after the fact to the alleged bribe of delegates Priesmeyer and Warner. The grand jury returned its verdict in the case of Naughton after a three months trial and \$100 fine. The indictment of Naughton grew out of the charges that he accepted \$500 from Henry Ascher to secure the passage of an ordinance granting him authority to erect a garage.

SHOULD LIVE 100 YEARS

Sir James Crichton Brown's Opinion.

Sir James Crichton Brown, of England, at the Congress of the Royal Institute of Public Health in London, gave a lecture on old age. He states that if every person should live right and take the proper care, to live one hundred years would be a matter of course.

There is no excuse for feebleness at the age of fifty, sixty, or even seventy. In every person there is a constant change taking place in the system, and just so long as the supply equals or exceeds the waste, just so long will old age be ward off.

When one finds their energies flagging, the organs acting slowly and less effectively, the blood sluggish, and in fact "feels old," then there is nothing known to medicine that will restore elasticity to the step, brightness to the eyes, vigor to the brain muscle, and strength to every organ in the body so surely as our real old liver and iron preparation, Vinol.

Vinol contains in a concentrated form all of the medicinal body-building elements of cod liver oil actually taken from fresh cods' livers, the useless oil eliminated and tonic iron added.

We ask every aged person in Oakland to try Vinol on our offer to return money if not satisfied. The Owl Drug Co., Oakland, Cal.

OFFICERS DANCE AT PERU BALL

Republic's President and Lima Society Greet Command- ers of U. S. Fleet.

(BY ASSOCIATED PRESS.)

LIMA, Peru, Feb. 26.—The ball given last night by the National Club in honor of the visiting American naval officers was a most brilliant success.

The elite society of the capital was well represented and among those present were the President of the Republic, several members of the cabinet, American admirals, the American minister to Peru, Leslie Combs, the staff of the American legation and the members of the diplomatic corps.

The dancing was continued until 3 o'clock, the streets being brilliantly illuminated and the club building was carefully decorated for the occasion. No less than six hundred guests attended the function.

TRIBUTE TO PRIEST

(Continued from Page One.)

dead, not even because of the slight of hand against the Almighty Father of all who lives, but because of the society in which we live and its outraged and loosened bond of law. Crimes such as that of last Sunday are assaults on no mere individual; they are against you and me and all of us. They strike and wound law and justice in the very heart of the civilized state.

Revolt Against Divinity.

"Father Leo was struck down, the murderer confessed, because he was a priest and not for any fanciful grievance or imaginary injury that the murderer had received from him. He never knew the dead priest; he had never spoken with him; his lives, except in that one dread moment of blood and sacrifice, have never touched. Nor did he kill him, as priests have been killed in the past, but he killed him because he knew that the priest was some outward symbol and present ambassador of that only authority by which the world and man are ruled—justice and human law. He revolted against God's authority, his rebellion went to its uttermost, he sought to destroy the world of human law and broke it until it rushed human blood; he revolted against outward symbol, the priest, and slew him."

Murderer Logical.

"The murderer was logical. The anarchist is not truer to his diabolical principles than when he slays a Catholic priest and slays him at the altar of God. It matters not that the individual priest possesses little of the world's power or goods, nor desires them for himself. Wherever he is the Catholic priest is a symbol of the world's power and goods, and he is a symbol of the world's discipline is most perfect, whose organization is most minutely against the enemy of disorder and anarchy in the hearts, in the spirit, in the soul, in the body of men as they move toward heaven and divine rule.

Yes, he was logical. He might have slain the stars of other Christian bodies, but not with similar hate—the impotent hate that slays for the sake, are too divided to be dangerous to him.

MURDER CHARGE PLACED AGAINST PRIEST'S SLAYER

DENVER, Feb. 26.—An information charging Giuseppe Alois, alias Angelo Gabriello, with the murder of Father Francis Leo Helmerichs, was filed today in the district court by District Attorney George A. Stieger.

This action is taken to indicate that the authorities are secured from the prisoner all the information concerning his crime and his connections which they deem necessary or expect him to divulge. He will be brought back to Denver from Colorado Springs, to which city he was removed Sunday night for safe keeping and will be placed on trial as early as a date as can be arranged for by the district attorney's office.

In his confession to the Denver police department, Alois said that he mistook Father Leo for an Italian priest who had taken an active part in fighting revolutionists in Avola, Sicily, and whom he determined to kill after the fashion of the Italian revolutionists. Alois said he did not know the name of this priest but that he was an assistant to Father Michael in Avola and in a street fight on Easter Sunday, 1895, was struck with a brickbat which broke his right leg and his left arm were broken and that besides several deep lacerated wounds of the scalp he had a possible fracture of the skull.

Since the beginning of the erection of the iron work of the new Palace, three men have been injured and one killed.

Not busy and look around and see what you have.

MISS CONSTANCE DE YOUNG TO WED JOSEPH O. TOBIN

SOCIETY BELLE IS BETROTHED

Engagement Follows Long
Friendship of Prominent
Young People.

Mr. and Mrs. M. H. de Young announce the engagement of their second daughter, Constance, to Joseph Oliver Tobin. This engagement is the culmination of a friendship of long standing, and the announcement will call forth the most sincere congratulations from the many friends of the young people.

Miss De Young's education, for the most part, was had in Europe, where she spent much time during her school years. Her education was begun, however, at the Dominican convent in San Rafael. Later she went abroad and attended the Convent of the Assumption in Paris. At the termination of her school days there she studied music and German in Dresden and afterward traveled extensively on the continent. Her versatility and diversified talents have been demonstrated by her cleverness in private theatricals, in which, in the cause of charity, she has taken part on several occasions. Mr. Tobin's family has been prominently identified with the history of the city for many years. He is the son of the late Colonel Robert Tobin, is a nephew of Joseph S. Tobin, Richard M. Tobin, Edward J. Tobin and Clement P. Tobin and a brother of Cyril Tobin. He was born in this city, but the educational years of his life were spent in the East. He prepared for college at Georgetown, Washington, D. C., and entered St. John's College, Fordham, N. Y., took his degree from there in 1899. Following this he went to New Haven for a two years' law course at Yale.

At the conclusion of his college life he began his business career in San Francisco and is now connected with the Hibernia Bank. Besides being identified with the business life of the city, Mr. Tobin is prominent socially and well known as an enthusiastic sportsman, being especially devoted to polo. He is a popular member of the Burlingame Country Club, the University Club and the San Mateo Country Club.

No date has yet been set for the wedding.

WITH KNIFE NEGRO FIGHTS THREE MEN AND WOUNDS ALL

Contractor and His Men Hurt

(SPECIAL TO THE TRIBUNE.)

SAN FRANCISCO, Feb. 26.—Following a vicious attack by an infuriated negro in front of the John Schmidt building at 9 o'clock this morning, three persons were more or less seriously hurt and two of them were taken to the central emergency hospital for treatment.

The dispute arose when John J. O'Hagan, superintendent of the building, which is located to Kearny and Geary streets, attempted to eject two negroes who were making themselves officious at the Kearny street entrance.

He questioned them as to what they wanted and claims that they replied "asolutely to them and called him vile names. He became more insistent about their going away, when one of them drew a long knife and made a stab at the superintendent. Harry Leonard, the foreman of carpenters, intervened to save O'Hagan, and had his coat cut from his back and his wrist slashed from coming in contact with the knife.

The second negro, apparently taking fright at the actions of his companion, made his escape and Patrick Foley, a carpenter, ran to the aid of the other two men.

The negro was not to be scared, however, by weight of numbers, and, drawing back his knife, he made a lunge at Foley, just as the latter came up, cutting him severely on the chest and throwing him with great force against the curb of a truck standing at the curb.

O'Hagan then raised a cane which he carried and trumped the colored man with all his might over the head, but did not succeed in subduing him and was himself the next man to go down before his fierce antagonist.

When the negro was hooked at the city prison he gave his name as Charles Smith, 23 years old, a laborer, and his residence 2015 Dupont street.

"I am the most logical man for assassination, and although I have thousands of friends in the Italian colony, I also have many bitter enemies."

Father Dunne said if he was not chosen to be murdered the other candidates would be either Archbishop Quigley, the Very Rev. Father Angelucci of the Church of the Assumption, or the Rev. Father Francis Gordon, C. R., provincial of the Church of the Resurrectionists.

Detective Bernacchi and Longobardi reported to Chancellor Dunne at the chancellor's office yesterday, and told him they were instructed to serve as his personal bodyguard.

"I am positive that anarchists, anti-clericals, or whatever they call themselves, have prepared lists of priests and clergy to be killed and am certain that some Chicago man has been marked," he said.

PIANO BUYERS CROWD FOUR STORES

Monday's Fortunate Purchasers Bring Their
Friends to the Eilers Sales

Hazeltan, Decker, Steinway, Kimball, Knabe, Hobart M. Cable and Many Other Well-Known Pianos Included in Remarkable Closing-Out of Four Eilers Piano Stores

The second day of our Closing-Out Sale surpassed the first. Several of Monday's buyers returned yesterday, bringing friends with them, who also bought. It is almost impossible to speak conservatively of the chance that we are now presenting in the way of prices, quality and terms. Conditions are such that we recognize the necessity of making this sale greater than any which has ever preceded it and greater than any which will ever follow it.

From our Berkeley and Oakland stores come the reports that people are thoroughly alive to what this piano-buying opportunity means, and at our two city stores our large sales forces have been taxed to the utmost to take care of the many piano buyers.

SIMPLY A CASE OF MUST.

Our new building is destined to be the music emporium of the West. We have a stock of pianos coming which will occupy all the available space the store affords. It is a huge undertaking, and the recent curtailment of banking accommodations makes it more imperative than ever that our present stocks be turned into money, or good contracts. We were never confronted with as strenuous an occasion. In addition, our new building is now being completed much more rapidly than any one expected. Labor is more plentiful of late and although a few weeks ago we did not expect to go to this building before early summer, we now find the time when it will be ready for occupancy decreasing by hours.

We realize that prices and terms altogether unprecedented must now be made. The matter of profit will for the present be ignored.

\$5 AND \$6 PAYMENTS.

There is scarcely a music-loving home in all the cities of the bay which

cannot now afford a piano. We are selling new \$400 pianos for \$245, terms \$5 monthly; new \$325 pianos for \$182, terms \$5 monthly; and new \$250 pianos for \$137.

PIANOS \$5 AND UP.

A large number of Kohler & Chase, Winthrop, Everett, Boardman & Gray, Ludwig, Steck, Fischer and other pianos, many of which cannot be sold from new, will go for \$5, \$8, \$10 and \$15. Payments \$5 monthly buys them.

Hazeltan, Decker, Steinway, Kimball and Knabe, and practically every high-grade make of piano, is included in this sale. Each of our four stores has a complete assortment.

We offer now the finest of mottled mahogany and burr walnut, highest grade upright pianos for \$182, \$217 and \$245, and will accept terms of payment as low as \$10 a month; yes, \$5 monthly if necessary.

WHAT MORE CAN BE SAID?

Remember, too, please, that every instrument sold under our hands is not only unconditionally warranted as to service and quality, but also as to price. If the same grade and quality is obtainable elsewhere for as little money we agree to take back the instrument and cheerfully refund the money.

FOUR STORES BUSY.

This sale is now in progress at 1075 Clay street, Oakland; 3140 Market street, San Francisco; 1220 Fillmore street and 1130 Van Ness avenue, San Francisco; EILERS MUSIC CO., Largest Piano Retailers.

Fines Jurors for Flipping a Coin

NEW YORK, Feb. 26.—Justice Day in the New York Supreme Court set aside the verdict of a jury and fined twelve jurymen \$50 each for deciding the verdict by the flip of a coin. The

case was a suit brought against the New York City railway company for damage in causing the death of a child.

A jury brought in a verdict in favor of the railway company. One jurymen explained the jury's action saying the jury was hopelessly divided and that one of the members of the jury was anxious to attend to his business.

Raiding the Big Basin.

One of the San Jose papers has entered a sturdy protest against the invasion by the woodchopper or the lumberman of the Big Basin State park. When the Sempervirens club started the agitation for the reservation of this section of the redwood belt as a State park it was for the purpose of keeping out the woodchopper and the lumberman and preserving the live trees from destruction. The Legislature finally agreed to buy the property and did so, dedicating it as a public park, and a salaried custodian was appointed to take care of it. But it was with the distinct understanding that the property was to be reserved exclusively as a resort for the pleasure and recreation of the people of the State and that there should be no cutting of the live timber. Now our San Jose contemporary charges that the woodman is cutting through the live forest and making lumber of the trees he is felling. If so, some one in charge is breaking faith with the State and either neglecting his duty or grafting.

If any State officer is either winking at the denudation of the reservation or has consented to allow any one to cut out living merchantable timber therein, the sooner cognizance of it is taken by the proper authorities the better and the commissioner in charge is deprived of his job. Any man in authority who will close his eyes to what is said to be going on is totally unworthy of the trust which has been reposed in him, for it goes to show that he is either indifferent as to his duties or is using his position to graft and to defeat the very purpose for which the reservation of the basin was made by the State. It is up to the Sempervirens club, which did such heroic work to induce the State to buy the property for a public park, to see to it that its object is not defeated by any official dishonesty in consenting to the denudation of any part of the living redwood forest by the lumberman or any one else. It is evidently necessary to disallow the cutting of dead trees in order to save the living.

Nogi's Sympathy for Stoessel.

General Stoessel has a staunch friend in General Nogi, the commander of the Japanese army, to whom he surrendered the fortress of Port Arthur when it had ceased to be defensible. When it was announced that Stoessel was to be court-martialed for the surrender, Nogi was the first to protest and urged the Russian government not to commit such an unwarrantable error, as he had made one of the bravest defenses recorded in history; and, that when he surrendered, he did so in obedience to the cries of humanity against the slaughter of the helpless remnant of his garrison, which was at the mercy of the victorious troops.

Now that the trial is over, Nogi is among the first to express sympathy for his former foe, in response to a cabled request from Cincinnati for a statement of his views. "As a soldier," is Nogi's brief reply, "I deeply sympathize with General Stoessel. I cannot bear to state my views." The last sentence is an intimation that if Nogi did express his views, it would be to denounce in the strongest terms the barbarity of condemning a brave man to death for not continuing to expose his men to slaughter after the defense had become hopeless. And the Russian people are taking the same view of the case. They are protesting against the carrying out of the military court's sentence, and to allay popular indignation the Czar will probably extend clemency to Stoessel, as he did to Rojstevsky under similar circumstances.

The trade between the independent oil producers of Kern county and the Associated Oil Company was closed last week and is now in operation. The producers are under contract to deliver to the Associated a minimum of 14,000 barrels and a maximum of 16,000 barrels per day for two years. The price for this year is fixed at 60 1/2 cents per barrel; for the year 1909, 63 cents. There is quite a difference between the price which the Associated is now paying as compared to the price of 11 1/2 to 12 cents per barrel which the Standard and the Associated fixed about three years ago and which caused the independents to organize a producers' syndicate. The delivery of oil into the Associated pipe lines began as soon as the agreement was ratified.

San Diego is raising a \$20,000 fund to entertain the officers and men of Admiral Evans' battleship fleet when it reaches that port. About one-half of the sum was subscribed last week. The subscription means about \$1 per capita of the population of the city.

Dr. Johnson once remarked that he could tell the slams of a bass drum from the notes of a flute and could distinguish a highland pipe from a violin. Dr. Johnson had it on some other persons for candor.

CHIPS FROM OTHER BLOCKS.

President Benjamin Ide Wheeler appears to be overly zealous for a national university at Washington, just because, in his day, George Washington wanted one. In Washington's day a national university was needed, but in our day there is scarcely a university in the Union that has not students from every State in the Union. They are all national universities and none could hardly be more so.—Sacramento Union.

Dr. Rupert Blue should not be an alarmist if he is a bubonic expert and is in the service of the government to keep his eye upon foreign disease germs that would enter this country in spite of exclusion acts. Undoubtedly there have been many cases of the plague along the coast during the last year, and it is equally true that unless proper care and precaution is taken at once the disease might assume epidemic proportions. But even so, that does not justify Dr. Blue in rushing up and down the coast waving the red flag of danger nor blowing the foghorn of warning. He should have some regard for the eternal fitness of things and not magnify danger until there is an epidemic of nervous spasms. Dr. Blue gives it out that the battleship fleet will not be permitted to enter the port of San Francisco in May unless meanwhile the authorities make haste to stamp out all plague germs and kill all rats that may presume to have a habitation within miles of the anchorage of the fleet. The learned plague expert is too spectacular. He should not go about with a brass band.—Modesto News.

THIRD STANFORD MAN DISMISSED

Another Senior Suspended for Appearing in an Intoxicated Condition.

STANFORD UNIVERSITY, Feb. 26.—The committee on student affairs has suspended one more student for intoxication. This student was suspended for the remainder of the semester. The first two were suspended indefinitely.

The student who was suspended at yesterday's meeting of the committee was a senior. This makes three seniors who have been prevented from graduating.

The announcement of the suspension made by the committee is as brief as its former formal announcement. It is as follows:

"At a meeting of the committee on student affairs, held February 24, a student, for being noticeably under the influence of liquor, was suspended from the University for one semester."

"A. B. CLARK."
The incident on which action was taken occurred several weeks ago, but the "Daily Palo Alto" remarks that "it is believed, however, that this action completes the business left unfinished by Duland's committee and that hence-

HIRE WOMAN
ATTORNEY

MRS. F. H. CARPENTER.

Mrs. F. H. Carpenter has been driven from her last ditch in the affairs of women's clubs, for the National Society of New England Women has a woman attorney. The clubwomen have been in a quandary for some time, for the organization, Mrs. Fannie Hall-Locke, who holds this position, is one of the best lawyers in New York City. She is the partner of her husband, Mr. F. H. Carpenter, in his law firm, and is a leading member of the Board of the Women's Bar Association. Mrs. Carpenter studied law with her husband after their marriage, and is held by the firm's debts to be his equal in legal knowledge and acumen. Her success has been notable. She has always taken great interest in women's clubs, and in addition to her office in the National Society of New England Women, she has the honor of being president of the Sorosis, the first exclusive women's club in the country. Mrs. Carpenter is also a member of the Daughters of the American Revolution, says Broadway Magazine.

TETRAZZINI IS
SEMBRICH'S PEER

The Manhattan Opera, with a director who elected himself and will do so again at the end of this season, now is enjoying veritable golden days, for the phenomenal Tetrazzini crowds the house of her every appearance and Mary Garden, in "Louise," captures the dollars that her coloratura rival leaves alone, says Town Topics.

"Rigoletto" gave Tetrazzini a chance to show that she is great in other departments of song besides protechnical display, and all truthful chroniclers admitted that as Gilda she moved her auditors as much as she astonished them in the roles of Violetta and Lucia. The Italian cantatrice possesses the rare power of vocal pathos, and in the scenes with Rigoletto and the later episodes with the Duke, sang in a style so appealing that it made a palpable impression on the tear ducts of the audience.

Tetrazzini's "Cane Canone" aria was a perfect display of bel canto, abounding in all the graces and delights of the best Italian school of singing. Sembrich was long our ideal Gilda, but she faded into nothingness next to Tetrazzini with her amazing freshness of voice, her facility in its use and her sheer, unending resource in vocal nuance and interpretative variety.

Basini made a spirited Duke and in the "La Donna e mobile," created a furor of enthusiasm that Caruso never exceeded at the Metropolitan. Sammarco played Rigoletto with sinister purpose and high tragic effect. His singing always is that of the perfect operatic artist. Arimondi, the Sparafucile, added excellence to a most splendidly balanced individual and in ensemble. The singing of the famous quartet, under Campanini's sympathetic baton, was worth going miles to hear.

IN SOCIETY

MRS. FRANK GODFREY

ADAMS-GODFREY.

The marriage of Miss Ruth Adams and Frank Godfrey took place at 4 o'clock this afternoon at the home of the bride's sister, Mrs. John Jackson, in Burlington.

The wedding was one of the prettiest of the season, with only relatives and a small company of friends in attendance. Yellow was the prevailing tone in the decorations and in the gowns of the bridal party.

The bride wore a gown of white chiffon cloth trimmed with panne satin and silver embroidery. It was made in the empire style, embellished with a rich silver girdle. With this costume she wore a large white plumed hat and carried a shower bouquet of violets.

The bridesmaids were Miss Ruth and Miss Evelyn Adams, gowned in white chiffon with white hats trimmed in yellow and carried shower bouquets of yellow blossoms.

Frederick Fenwick attended the groom as best man. A wedding breakfast followed the ceremony, after which Mr. and Mrs. Godfrey left for the southern part of the State, where they will make their future home. The bride is a beautiful brunette and has a charming personality which has

MISS HARRIMAN AND HER
FIANCE ARE INTERESTED IN
OUTDOOR LIFE AND SPORTGIRL HANDLES COACH
AND FOUR WITH
SMARTNESS

MISS CORNELIA HARRIMAN

The marriage of Miss Cornelia Harriman, daughter of E. H. Harriman, to Robert Livingston Gerry will bring about an alliance between two families of note, and will constitute a merger of interests which even the most hostile critics of Edward H. Harriman must regard with pleasurable satisfaction. In view of the fact that both the young people are ardent devotees of the outdoor life, and take an expert interest in horses, coaching, and all those things that have to do with them, the match promises to be one of great congeniality. For several years past Miss Harriman has been a prominent figure in the annual coaching parade of New York, and has been noted not only for the smartness and perfection of her coach and four, but for her own skillful handling of the reins, says Broadway Magazine. Gerry, who is the son of Mr. and Mrs. Elbridge T. Gerry, is also a skillful whip, and an amateur sportsman of high merit. He comes of a family that has had its name written large upon the pages of American history. The wedding will take place Monday.

CRIMSON HEARTS
Are Dallied With
BY CLUBWOMEN

CHICAGO, Feb. 22.—The mayor, cabinet, and city council of the Social Economies club descended from politics to poetry for a time with results that caused mingled feelings in the breasts of said officials.

It was at the club's first annual "valentine luncheon," which was held at the Grand Pacific Hotel. By way of modification, huge crimson hearts had been sent to each of the solons, each bearing the inscription:

"N. B.—Some of the council members will be tossed in original valentine sentiments by a well known Chicago author."

The made it clear that the occasion was to be in the nature of a feast of reason, etc., but it did not prepare the legislators for what happened.

Just as Mrs. John F. Thompson, the Mayor, called the assembly to order, a messenger boy appeared with a red package, approximately two by three feet in size, which he presented to Mrs. Laura W. Greene. It was postmarked "St. Valentine's Day, 1908, First Ward Station," and was addressed to "Mrs. Laura Willoughby Greene, alderman from De Poist, with compliments of Hinky Dink."

The package contained an enormous pastebord heart inscribed with a paint brush—with a hitherto unpublished version of "Dear Midnight of Love."

The festivities having been opened in appropriate fashion, "the Mayor" was greeted by the council as follows:

Schrock, Mrs. Edward Hall Dodge, Mrs. J. H. Maxwell, Mrs. Charles Healey, Mrs. H. S. Korgan, Miss Blanche Lavayance, Miss Brelling, Miss Julia Brelling, Miss Emma Brelling and Mrs. Morse.

ENTERTAIN FRIENDS.

The bridge party given this afternoon by Mrs. Edward T. Gibson and her sister, Mrs. Ruth Woodbury, was one of the elaborate affairs of the month. The party was given at the attractive home of Mrs. Gibson in Alameda and the guest list included a number of society people from the city. Mrs. Elliott Bright, of Milwaukee, who is the house guest of the charming hostess.

Mrs. Gibson and Miss Woodbury were assisted in receiving their guests by Mrs. Charles E. Woodbury, Mrs. Edward I. de Lavayance, Miss Anita Thomson, Miss Carolyn Hawley and Mrs. L. E. Hardy.

A RECEPTION.

Mrs. George Dillman was hostess this afternoon at a reception, given at her home in Alameda. The decoration in the living room was pink with yellow in the dining room. Mrs. Dillman was assisted in receiving her guests by Mrs. William Van Brunt, Mrs. J. Burton Wallace, Mrs. J. G. Spaulding and Mrs. A. M. Ramsey.

INFORMAL PARTY.

Mrs. Thomas Crellin will entertain a number of friends at a card party to be given at her home in the Lakeside district. After an hour at cards there will be an informal tea. Mrs. Crellin will be assisted in her duties as hostess by her daughters, the Misses Crellin and Mrs. Whipple Hall. Bridge is the game announced for the afternoon.

SOCIETY NOTES.

Mr. and Mrs. William W. Fremery (nee Prather) are enjoying a two weeks' honeymoon in Southern California, where they will remain several days longer.

Mr. and Mrs. Louis Ridson Mead are spending a fortnight in the southern part of the State.

Mr. and Mrs. W. C. Edes of San Rafael are the guests of Mr. and Mrs. L. C. Boorham at the Athens hotel.

Mr. and Mrs. R. W. Crosby, nee Allen, left yesterday on the Korea for the Orient, where they will make their future home.

Miss Blanche and Miss Grace Hostetter are receiving the sympathy of their friends in the recent death of their father.

Novel Gifts.

Enraged couples are giving each other just now gold pencil cases, note books, knives and purses set with a row of precious stones, of which the initial letters spell the word "dearest". The stones are the diamond, emerald, amethyst, ruby, sapphire, topaz. For the ladies there are also little puzzle cases and mirrors decorated in the same way, as well as engagement rings with a band of precious stones arranged in the same order.

The various city officials followed in rotation, each responded, with valentines in "poetic sentiment," as follows:

The city's health is safe from measles, mumps and "jaundies" With health commissioner, our D. A. A. Saunders

HOW FAR SHOULD A WOMAN GO TO PROTECT LOVED ONES

How far should a woman go to protect her loved ones? What is the limit of the sacrifices she should make, or is there a limit, even death?

For the best thought, contained in less than 200 words, in answer to these questions, THE TRIBUNE will pay \$10. This contest is open to all women readers of THE TRIBUNE, and will close March 1.

To have contributions considered they must be written on one side of the paper, with name and address given.

Address all communications to the editor of the Woman's Page, THE TRIBUNE, Oakland, Cal.

How far should a woman go to protect her loved ones? Who are our loved ones? Protection shields from harm or danger. Our loved ones are those who need our love. If one is able to remedy woe or desolation, and does not, he becomes a foe, not a protector; and he who loves us helps us, or gets someone else to, and we then become their loved ones.

Christ said: "Who are my mother, sister and brother?" All who do the Father's will are the same to him as his household loved ones. Should we humanity claim protection, love and sacrifice from all?

There are cases of record of parents dying in the stead of guilty children. Christ said: "For scarcely for a righteous man will one die, yet peradventure for a good man some would even dare to die." But often dying is not so self-sacrificing as living for others.

The will dare assert they would follow loved ones to eternity or endless time. For human will (after what is called death) is lost in Divine obedience, and it would be as impossible to follow unbidden our loved ones then, as it would be to select our own above their eternity.

Husband Commits Suicide, Too

PITTSBURGH, Pa., Feb. 22.—For the second time within eight months Mrs. Caroline D. Sellers returned from church services to find a member of her family prostrate on the floor from a self-inflicted wound. The victim of today's tragedy was her husband, Henry D. Sellers, a real estate broker and the present head of an old Pittsburgh family. The first suicide was that of her son, Henry D. Sellers Jr., 22 years old, last summer. The death of Mr. Sellers, who was 55 years old, was directly attributed to the untimely end of his son upon whom he depended to join his business and finally to assume the position of head of the family and perpetuate its name and fortune. The older Mr. Sellers shot himself with a revolver. Mr. Sellers was a wealthy and was widely known in social and business circles.

Cupid Blocked by Blizzard

DETROIT, Mich., Feb. 26.—Miss Besse Whitcomb of this city and Fred Reglin of Royal Oak, with two friends as witnesses, went to Vassar, Mich., to get married. The witnesses went to the country seat. Caro to get the license. A blizzard stopped all railroad traffic and they are forced to remain in Caro for three days.

The young couple who desired to wed

DETROIT, Mich., Feb. 26.—Clyde Grant, on trial in the Circuit Court here for killing Henry Dickerman, was found guilty and sentenced to fourteen years' imprisonment.

Grant based his defense on the "unlawful act," but his supposed wife took the stand and denied she had ever been married to him.

Sant followed her one night and saw her meet Dickerman in the street. He followed Dickerman and was stabbed to death.

MARCEL PREVOST GIVES VIEWS ON "FLIRT"

When the officials at Washington make up their lists of this country's exports they have always omitted one very important member of that imposing company. Most of the things America sends to Europe would probably have got for itself, if it had been very hard put to it; but one item she has never attempted to export, and that is the American flirt. In Europe the flirtation is very much abroad in the land. Not that you would hardly be polite to comment upon the way they have treated our gift to them.

"A flirt"—which is the single word the Continentals use for the act of flirting, the flirtatious itself, and the people who perform it, act. A "flirt" gets rather severely ill-treated by its Latin counterparts and sometimes its American mother. But she is the American flirt, and she is so it astringe. But there is a new spirit afoot in Europe in regard to this important question. Feeling that they may have been making as great a success of it as they might, the Latin people are approaching the subject in a more philosophical manner.

M. Marcel Prevost is an authority in France on the psychological of the young girl. His "Lettres a Françoise" are as charming series of reactions on a girl's heart as any that have ever been written. If she has been coaxed upon to write a sequel to that series of his for a French magazine, anyhow, he turns his attention to the "flirt." What Mr. Prevost has to say on this subject is typical of the way sensible French people in general regard it.

To beg with M. Prevost reminds us that although the flirtation may be an Anglo-Saxon idea in its development, the word is of French origin.

"The ad," he says, "born in France, has come to us from England with a different twist, a ruder and shorter accent. On the way, it also changed its meaning, and singular phenomena—once introduced in the country of its birth, it preserved neither the French significance of years ago nor the present English meaning.

"Coit Françoise," to carry on a "flirt" was to amuse a woman with gallantries, to woo her gently without aggressiveness, without great haste, but always with the idea of winning her. The act of the woman, in such a case was to be an innocent or overture to a reply by amiable refusals; a rosiest possible passive. The English "flirt" is the contrary call for two active on terms. Two persons in the society please each other; they choose; either for partners in a game of delicate attentions, whispered asides and tendernesses. The fundamental law of the game is that the moral and social laws should not be transgressed. You may see the difference between the "flirt" and the "flirt." The Anglo-Saxon flirtation is not for him a way of life, it is only a game. The flirter wishes to flirt and nothing more. Such is the theory of the game.

BELLEVILLE, Ill., Feb. 26.—Clyde Grant, on trial in the Circuit Court here for killing Henry Dickerman, was found guilty and sentenced to fourteen years' imprisonment.

Grant based his defense on the "unlawful act," but his supposed wife took the stand and denied she had ever been married to him.

Sant followed her one night and saw her meet Dickerman in the street. He followed Dickerman and was stabbed to death.

be thus summed up. In France, for instance, the man who flirts nine times out of ten sees in the flirt not a game but a beginning of conquest just like his ancestor in knee breeches and lace cravat, the gallant "contour de fleur-de-lis."

A woman grant him the least privilege of love and stop there the French flirt for young wiles. However, it is practiced in certain circles and in certain countries. But, as we do it here, my charming niece—not as we discuss the matter with beautiful and hollow phrases, but as it is practiced in among us today—we must agree that it is difficult to exclude from society that sentimental fermentation which comes from the intercourse of the two sexes. What shall we do about it? Adopt a puritan rigidity? That would not be practical, and it is not necessary.

tends toward liberty, toward knowledge of one's self, toward the development of personality, as custom tends to equalize the legal rights of the two sections. A young girl or a young wife warned is worth not two, but a hundred not so armed. A flirt on her guard can be an honest flirt. DRUIDS AT BRILLIANT RECEPTION HONOR THEIR SUPREME OFFICERS

G. H. BERTRAM, NOBLE SUPREME SECRETARY H. SUPREME ARCH EMIL F. FREUDENTHAL. WINKLER.

MAYOR GREETED TWO DISTINGUISHED VISITORS

Ball Follows Welcome to Emil F. Winkler and Henry Freudenthal in Ebell Hall.

The reception and ball of the United Ancient Order of Druids in honor of Supreme Circle Emil F. Winkler and Supreme Secretary Henry Freudenthal, given by the Oakland groves, circles and chapters at Ebell Hall last night presented a scene of unusual splendor.

Under soft lights, druidesses of radiant beauty and flame worshippers in bright uniforms danced, while all gathered to do honor to the supreme officers of the order, who recently arrived on the coast from Albany.

Henry Freudenthal, who has been in office for forty-five years, has been created supreme secretary for life.

The supreme arch and secretary are traveling all over the jurisdiction of the United States, visiting all of the groves. They reached California February 9, stopping first in Los Angeles, thence to San Francisco, where a reception was tendered last Monday night.

The two supreme officers then came to Oakland, and they will remain in this vicinity a few days. Then they will continue their inspection tour through Oregon and Washington.

Every devotee of the flaming altar and blazing sun within many miles attended the reception last night, and Ebell Hall was crowded.

Druidesses Receive.

The various groves, circles and chapters were represented on the reception committee as follows: Mrs. Belle Pimentel, grand arch druidess, assisted by "Oakland" Grove No. 24; A. Riehl, W. K. Macpherson; "Rom" Grove No. 95; Dr. C. A. Queirolo, Y.

Capogorno; "Serpa Pinta" Grove No. 133, F. J. Nichols, W. F. Perry; "Live Oak" Grove No. 160, F. Mignola Jr., F. B. Smith; "Luzitania" Circle No. 30, Mrs. Dr. J. B. de Farla, Mrs. R. Vincent; "Live Oak" Circle No. 37, Miss L. Pickett, Mrs. F. Moninger; Mrs. C. V. Fisher, Mrs. A. Gordana; "California" Circle No. 52, Mrs. V. Capogorno, Mrs. M. Wright; "Portugal" Circle No. 63, Mrs. F. J. Nichols; "Live Oak" Chapter No. 5, E. R. Alden; W. A. Ghirardelli.

The executive committee consisted of the following: President, M. Pozzi, vice-president, Dr. J. B. de Farla; treasurer, Dr. C. A. Queirolo; secretary, W. A. Ghirardelli.

W. G. Ghirardelli, in a flashing uniform, acted as floor director, assisted by the following: Dr. C. A. Queirolo, E. R. Alden, A. Riehl, Dr. J. B. de Farla, F. J. Nichols, and P. Mignola Jr.

Mayor Mott Welcomes.

After the orchestra played "America" as a welcome ode, Mayor Frank K. Mott made an address of welcome in behalf of the city of Oakland, saying in part:

"Oakland is honored by the presence of the supreme officers of such a great order as the Druids. I believe in such orders, and I think that by joining a secret society of this nature a man better himself, and becomes a good citizen. The more such orders there are, and the more men that join them, just so much will the city, State and nation be benefited. Nor do the good effects stop at our own shores, because a society of this kind is non-political, and embracing all sorts and conditions of men it makes its own members cosmopolitan, and by spreading over the world it draws the different peoples and races together."

Presents Gavel.

Dr. H. R. Mehrmann, who was to have responded to Mayor Mott, was unavoidably absent, being compelled to remain at home because of illness in his own family.

His place was taken by Noble Grand Arch G. H. Bertram of Modesto, who thanked Mayor Mott for warm welcome to the supreme officers, and then spoke on "Druidism," dwelling on the principle of the order and the symbolical significance of

the flaming altar, blazing sun, mistletoe, oak branch, and other distinctive marks of the society.

Supreme Arch Emil F. Winkler and Supreme Secretary Henry Freudenthal made a few happy remarks in reply, and then Noble Grand Arch Bertram presented a beautiful gavel, made of California wood and mounted with California gold, to Supreme Arch Winkler, in behalf of the Oakland groves, circles and chapters.

The credit of this handsome memento belongs to the circles, which originated and carried out the idea of presenting a gavel wholly Californian.

Following the presentation of the gavel, the dancing began, the grand march being led by the distinguished visitors.

Neighborhood Favorite.

Mrs. E. D. Charles, of Harbor, Maine, speaking of Electric Bitters, says: "It is a neighborhood favorite here with us. It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood is a thorough purifier, making it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at Osgood Bros' drug store, 50c."

Tracked by Sleuths; Crazed; Tells Murder

PUEBLO, Colo., Feb. 25.—Almost crazy from avoiding detectives for the past three years, Robert Munn confessed to a friend here yesterday that he had killed a man, whose name he did not know, in a saloon fight in Litchfield, Illinois, on July 4, 1906. The friend notified an officer and Munn was placed under arrest and repeated his confession. The Litchfield authorities have been notified.

STREET FOREMEN MADE SPECIAL POLICE

Board of Commissioners Adopts New Plan to Keep Pavements Clean.

The board of police and fire commissioners this morning adopted a resolution appointing the foremen of the city street gangs as special policemen to enforce the city ordinances against throwing garbage or other refuse into the streets.

Secretary Fawcett of the board of works said that the members of the street cleaning force were constantly reporting that they had witnessed violations of the law, but that they were powerless to prevent them.

Under the new regulation the street foremen may arrest any person whom they observe in the act of throwing refuse matter upon the public streets.

The following foremen were appointed special policemen: F. Macdure, P. McDermott, B. J. Nolan, J. P. Branley, Wm. Dolan, H. Ott, H. Derby, D. B. Parker and Wm. Jones.

HENRY H. BLOOD DEMANDS DIVORCE

Charges "Mental Cruelty"; Ran Wife Out of Home in Night Dress.

Henry H. Blood, mining and oil speculator and reputed to be a wealthy man, yesterday commenced suit for divorce against his wife, Myrtle Blood, charging mental cruelty.

The Bloods have been residents of Alameda for five years, the term of their marriage life.

Mrs. Blood is well known in all of the bay cities. Before marriage she was Miss Maymaj Costigan of San Francisco.

There is no child between them, and on the application of Blood, Judge Waste yesterday gave him the custody of the three-year-old girl during the pendency of the divorce proceedings.

It is not believed that there will be a contest. The couple have figured prominently in the reports made to the Alameda police. Last Monday Blood forced \$100 bail which he had placed to secure his release on a charge of disturbing the peace.

Wife Won't Contest.

At 2 o'clock on Saturday morning, according to the police report, Mrs. Blood ran into the street, attired only in her night dress, claiming that her husband threatened to kill her if she stayed in the house. She fled to her mother's home, and according to her husband, she is stopping at an Oakland hotel.

It is said that Mrs. Blood has been charged with the murder of a highly sensitive nature if he decided to summon a writ of habeas corpus, however, that the action will be quickly settled. The Bloods have lived at 1217 Sherman street in Alameda.

This case has been one of the most remarkable on record in Los Angeles. That she lived with her spinal cord seriously injured and with no other means of communication with the outside world is considered wonderful by surgeons. Miss McFarson and her mother came to Los Angeles about a year and a half ago.

DRAWN BY RUNAWAY BUT SAVES MAN'S LIFE

The life of Joseph Johnson, a probably saved by Edgar Dodson, a young pressman of THE TRIBUNE, who showed great presence of mind and courage in stopping a runaway horse this morning.

Johnson had started to drive from the Dashway stables on Broadway street when his horse bolted, hit in mouth, and plunged down the street, threatening the lives of pedestrians as well as the driver.

At Franklin street the maddened brute ran over the sidewalk, nearly jumping into the TRIBUNE pressroom, when Dodson leaped out, grabbed the horse's head and held on while it dragged him fifty feet, finally bringing it to a stop.

Johnson, who had been thrown out of his seat and was hanging in midair between the whirling wheels and the ground, was saved by Dodson's act, who undoubtedly has been killed had it not been for Dodson's heroic act.

William A. Brady began by proposing a toast to President Roosevelt, animating over the omission of this toast at recent banquets here. It was drunk standing.

Joseph D. Redding read a satirical paper about "Ego the Terrible," referring to Roosevelt, then he praised the sending of the fleet to the Pacific and the applause was enthusiastic. The banquet was the most enjoyable and successful ever given by the society.

RHEUMATISM

ITS PAINS AND ACHES CAUSED BY URIC ACID IN THE BLOOD

Rheumatism is in reality an internal inflammation. It is caused by an excess of uric acid and other irritating foreign matter in the blood, which has gotten into the circulation because of indigestion, chronic bowel disturbance, weak kidneys, and a general impaired and sluggish condition of the system. The refuse or waste matter of the body, which should be carried off by the usual avenue of bodily drainage, is left in the system because of these irregularities, and it ferments and sours, forming uric acid and other impurities, which are absorbed into the blood.

Then this vital fluid loses its powers of nutrition and healthfulness and becomes a weak, acid-laden stream, which, as it circulates through the body, deposits the poisons and acids with which it is filled into the muscles, nerves, joints and bones. This causes inflammation and soreness, and soon the pains and aches commence; the joints swell, the flesh grows sensitive and tender, and Rheumatism is established in the system.

The progress of Rheumatism is usually gradual; day after day the blood continues to distribute the uric acid throughout the body, and slowly but surely the disease grows worse. The little pains tugging at the muscles, or wandering from joint to joint, which were the first symptoms of the disease, now become chronic and cause more intense suffering, the muscles become tense and drawn, the lubricating oils and fluids which aid the joints to work smoothly and easily are gradually destroyed by the continuous stream of acid matter from the blood, and after while the limbs may become stiff and useless.

You can never conquer this deep-seated disease with external treatment, such as plasters, liniments, blisters, etc. These may afford temporary relief and comfort from the pain, and for this reason should be used, but as they do not reach the blood where the real cause is located, should not be depended on alone to effect a cure. The disease is rooted and grounded in the blood and must be driven from its stronghold there before permanent relief can be had.

S. S. S., a purely vegetable blood purifier, is the proper treatment for Rheumatism. It goes down into the blood and attacks the disease at its head, and by driving out every particle of the poison and strengthening the blood, cures Rheumatism permanently. Being a perfect blood purifier, S. S. S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the excited nerves, eases the throbbing muscles and painful joints, and filters out of the circulation the irritating matter which is causing the pain and inflammation. When the blood has been freshened and purified by S. S. S., it circulates to all parts of the body, and gradually nourishes back to a healthful state those different members that have been impaired because of the weak, unnutritious condition of the blood. S. S. S. reaches inherited as well as acquired cases of Rheumatism and completely removes the taint from the blood. Special book on Rheumatism and any medical advice free.

JOINTS INFLAMED AND SWOLLEN.

Six years ago I had a severe attack of inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed medicines every week, and nothing they prescribed seemed to help me. Finally I left of their medicine and began the use of S. S. S. My knees and elbow joints were swollen terribly, and at one time my joints were so swollen and painful that I could not close them when open. I was so bad that I could not move knee or foot; in fact, I had one of the severest cases of Rheumatism I ever heard of. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and today I am a sound, well man, and I have never had a return of the disease. S. S. S. relieved the swelling and inflammation, purified my blood and cured me of this severe case of inflammatory Rheumatism after everything else had failed. I have recommended it to others with good results, and know that it is a sure cure for Rheumatism.

GET RID OF IT

Why have old trinkets around the shop or house? You can see the old "Swag Column" of THE TRIBUNE and trade the old buggy for a gun; the bicycle for a camera, etc., etc.

A free illustrated stereoscopic lecture for ladies and gentlemen on the San Joaquin Valley, its resources and opportunities it offers to home seekers, will be given Wednesday, February 25, at 8 p. m., at the office of George W. Austin, 1018 Broadway, Oakland, by H. W. Williams, Esq., official State Board of Trade lecturer.

Talks on Teeth

By REX DENTAL CO., Inc.

Thousands Endorse Alveolar Teeth

The year 1907 marked the high-water mark in the growth of this great dental business.

The increase over previous years was nothing short of phenomenal.

Patients from all over the Pacific Coast are today enjoying the blessings of sound, serviceable teeth, who had been afflicted with partial plate teeth, which are a nuisance, or teeth set on "bridges," which were not alone a nuisance, but a constant torture as well.

The Alveolar Method of supplying missing teeth without plates or ordinary bridgework is rapidly driving out all other methods. Teeth put in the mouth by this method are in to stay, solid, beautiful and—best of all—natural looking and acting teeth. They can't be distinguished from the teeth nature grew in the gums in the beginning.

You can eat with them, and chew your food as nature intended—grinding it up so it enters the stomach in proper shape to be assimilated.

How are your teeth? How many are missing and what substitutes are you using for those that are missing?

Have you indigestion? These are the questions we would like you to answer if you will come to one of our offices, or write for particulars.

The teeth deserve to be well taken care of. If they are not in good order the stomach will soon rebel, and then look out for trouble.

From a number of recent letters from grateful patients we submit the following, which is a fair sample of those which come to us from every mail:

Los Angeles, Cal., Feb. 7th, 1908.
Fox Dental Co.,
Gentlemen:

I called on you this A. M. particularly to compliment the high class and grade of work performed on my wife's teeth, as the case warranted skill, on account of the extreme bad condition of her teeth, caused by excessive use of chloroform, etc., on account of capital surgical work performed for her which loosened all gold fillings, etc., therefore expert dental work was necessary in her case.

Again thanking you, I remain,

Yours respectfully,
D. E. Lusk,
Assistant Commissary Dining cars, Southern Pacific Company.

If you are near enough to one of our offices, call by all means. Don't imagine that a call or an examination of your teeth after you call will oblige you to have any work done. We will simply tell you what you should do to preserve teeth and health—and let you be both judge and jury as to whether you will follow our instructions or not.

If you cannot call, you can write for our free book, "Alveolar Dentistry," which goes into details about the wonders of the method.

Send for this book and read it. It is the greatest book on the teeth ever printed, and worth a lot to you if you have need of dental work.

Why not sit right down now and send for the book?

The Alveolar Method is not painful. We don't cut or bore into the gums, and the expense is not so great as is obtained outside of one of our offices, so be sure you come or send to the right address.

CAUTION—For your protection we advise you to pay no attention to the unscrupulous imposters who are advertising the Alveolar Method. The patent belongs to this company and this company alone has the right to use it. Remember it can only be obtained on this coast and at one of our offices, the addresses given below.

SCIENTIST'S THEORY OF CENTURY IS DISPROVED

Supposed Planet Credited With Deflecting Mercury Shown to Be Myth.

SAN FRANCISCO, Feb. 26.—Professor W. W. Campbell of Lick Observatory, who headed the recent expedition to Flint Island to observe the total eclipse of the sun, last night stated the St. Francis Hotel told of the manner in which one theory of science at least was disproved by the expedition.

"For more than fifty years astronomical mathematicians have entertained the theory that in this space there was a planet or group of planets powerful enough to attract Mercury from its well-defined orbit," he said. "It is certain that some force is pulling Mercury from its regular course, but the theory that this force is some unknown planet will now have to be discarded."

"No doubt a mass of solid particles exists in that area outside the solar system, but nothing that we have found in this area is large enough to have any influence upon the deflection of Mercury, so astronomers for the time being will have to fall back upon the theory that it is this mass of solid particles itself which is forcing Mercury out of its normal orbit. Astronomers may not agree on this point."

Professor Campbell thought the photographs of the spectra of the corona, after proper study, reveal much about the structure and composition of the corona.

Doubts Mars' Canals.
Professor Campbell was asked for an expression of opinion about the canals on the planet Mars and whether life existed there. After some little hesitation he remarked:

"There is no scientific evidence of life on Mars and the so-called canals have no scientific verity."

"The lines or markings on Mars may be vegetation instead of canals. The former theory is as liable in my opinion as the latter."

"I have no desire to criticize those who are positive about life and canals there. No doubt atmospheric pressure on the planet is very light—probably one-tenth the pressure of our atmosphere. This, of course, means heavy evaporation. Much of the so-called scientific talk about Mars involves matters which competent engineers would deem impossible."

Life on Other Planets.

"I am a believer in the proposition that other planetary systems besides our own have life suitable to their conditions. Our sun is an ordinary star, one of one hundred million ordinary stars. It is inconceivable to me that our planetary system should be the only one in the universe which contains life. In fact, it is absurd to seriously maintain that other system in the universe has life but our own."

"But to return to Mars. The Lick Observatory people have never been able to detect any evidence of life or canals on Mars, although there are some astronomers who seem to be dogmatically affirmative on those two points."

EAT ANYTHING IF EATEN SLOWLY
A prominent specialist on stomach trouble in a lecture to the Allied Ladies Clubs Association stated that the reason so many people were the victims of the distressing and dangerous malady dyspepsia, was simply because they ate too fast. He says there is much talk about what should and what should not be eaten, but all this might be held in total disregard if the proper mastication were given to food, no matter of what nature.

He also gave out a most valuable prescription for the benefit of these already suffering from the effects of dyspepsia or indigestion of any form. It is as follows: "Two ounces of Essence of Peppin; one ounce Catnap Compound; three ounces Syrup of Ginger. These to be well mixed and used in doses of from one to two teaspoonfuls after each meal, also at bedtime for the first few days."

This makes a simple mixture which can be gotten at any well-stocked drug store and is easily prepared at home. It is pleasant to the taste and he says is the most effective formula known to science for restoring the digestive organs to their full vitality and activity, so it surely must be worth a trial by those thus afflicted.

LOSES 40 POUNDS OF FLESH IN 40 DAYS

Rengo, the Great Fat Reducer, Brings Happiness to Battle Creek Woman.

As an ordinary illustration of the wonderful results of "Rengo," mention is here made of the case of Mrs. Ada L. Engle, who lives at 233 East Main street, Battle Creek, Mich. Here is her loss in weight, bust and waist measurement:

Before. After.
Weight—237 pounds. 137 pounds
Waist—37 inches. 34 inches
Bust—44 inches. 40 inches
The following is a letter written by Mrs. Engle to the Rengo Co. at the end of only 40 days' treatment:

"I can hardly believe my eyes when I look at myself now and realize how fat and ungainly I was not over two months ago. I feel as though I was in a new world. I feel so light and strong. It is all due to Rengo. I started with little hope that I could ever get thin by it, because I had taken so many other things and lost every 3 or 4 days not more than a day while taking Rengo. I guess that was because I tasted so much like delicious candy."

"Every day that I lost flesh I felt myself getting more strength, so that today I can lift a great deal more, can do more work, walk upstairs quickly without getting tired, and do almost anything with the same energy and delight as when I was a girl. I am simply feeling fine, and if I can't do any more than to write you this letter I certainly owe it to you to allow any fat person who wants to place his or her confidence in some one and be reduced to write to me and find out the truth."

With lasting gratitude to you and Rengo, I am yours cordially, Ada L. Engle.

This same experience can happen to you if you are over-fat. You will be stronger, healthier and happier. There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full-sized box, or by mail prepaid, 50c. Rengo Co., 223 East Main street, Detroit, Mich. The company will gladly send you a trial package free by mail, but will write them direct to Detroit; no free packages at drug stores.

For sale and recommended in Oakland by Dr. King, 1018 Broadway and Broadway, Washington and 10th streets, 413 13th street, 18th and San Pablo.

KOREAN STUDENT APPEALS TO COURT

Demands Admission to Sausalito Schools From Which He Was Excluded.

SAUSALITO, Feb. 26.—"Sung Ho Cho, the Korean youth excluded from the public schools under a new ruling of the trustees, will appeal to the courts to compel the trustees to admit him into the schools."

Daniel H. Suter, the San Francisco attorney in whose home the Korean is employed, announced yesterday that he will apply to Judge Thomas J. Lennon of San Rafael for a writ of mandamus.

The controversy grew heated yesterday when Suter accused the school trustees of acting for political purposes and hinted that their action was taken to turn the people from the question of schoolrooms to one of race at the next election.

"The trustees clearly have exceeded

How to Enter the Hunt

THE TRIBUNE's Proverb Hunt is a contest of skill and diligence. Every day for fifty days there will appear a picture or cartoon representing a familiar and commonly used English Proverb or Quotation.

The correct answers, to serve as a basis of awards, have been selected from a standard work on English Proverbs and placed under seal. The correct list will be published with the announcement of the winners.

Cut out the picture and the answer blank which will be published every day commencing Wednesday, Feb. 5, and save until the close of the contest. This will enable you to think about the answer and afford ample time for all members of the family to offer suggestions. As all editions of THE TRIBUNE will be quickly sold out every day, we cannot guarantee to supply back numbers of the paper after the regular edition is sold out. To insure getting THE TRIBUNE order it delivered at your home.

One week will be allowed after the publication of the last picture for answers to be sent in. This will afford time for careful answers of the final picture, as well as re-examination of all the pictures. The answers may be filed in any legible way by handwriting, typewriting, pencil, ink, etc. Address all answers to the Proverb Hunt Manager.

Rules of the Hunt
1.—The Proverb Hunt is open to all, but contestants must indicate the due course—will take into account the similarity of the answers to the exact wording of the proverbs as selected by the Proverb Editor; spelling, punctuation and the correct construction are also desirable in the interest of contestants. Reasonable neatness will be taken into consideration. The awards of the judges will be final in all cases.

2.—The first prize will go to the person answering the most pictures correctly. The person answering the second largest number correctly, or nearest so, will receive second prize, etc. In event of tie the prizes will be divided.

3.—Blanks may be filled out in any legible way, by pen, pencil or typewriter, etc.

4.—Answers must be sent in only at the close of the contest; all answers must be in THE TRIBUNE office one week after the last or fifty pictures have appeared.

5.—All answers must be plainly addressed to the Proverb Editor, THE TRIBUNE, Oakland, Cal. They may be left at the office or mailed, in which event they should be fully prepaid.

6.—Employees of THE TRIBUNE and members of their families are positively barred from competing for rewards in this contest.

7.—In making the awards, the judges—whose names will be announced in due course—will take into account the similarity of the answers to the exact wording of the proverbs as selected by the Proverb Editor; spelling, punctuation and the correct construction are also desirable in the interest of contestants. Reasonable neatness will be taken into consideration. The awards of the judges will be final in all cases.

8.—The first prize will go to the person answering the most pictures correctly. The person answering the second largest number correctly, or nearest so, will receive second prize, etc. In event of tie the prizes will be divided.

9.—In the event of a tie for any prize, the value of such will be equally divided, or a prize of similar character and value awarded each tying contestant.

10.—THE TRIBUNE reserves the right to make any changes or additions to these conditions that it may deem desirable in the interest of contestants. The good faith and honor of THE TRIBUNE are pledged to insure a "square deal" for all.

List of answers is deposited with Security Bank and Trust Co., 11th and Broadway.
